THE BOARD OF DIRECTORS

The Board

Chairman

Gregory E. Johnson

Gregory Johnson (57) was appointed to the Board on November 28, 2003. He is Chairman, President and Chief Executive Officer of Franklin Resources, Inc. and serves on the Board of Directors. He is also President of Templeton Worldwide, Inc., Chief Executive Officer and President of Templeton International, Inc. and serves as a Director for a number of subsidiaries of Franklin Resources, Inc. He is a member of a number of Franklin Templeton's International Fund Boards. Mr. Johnson joined Franklin in 1986 after working as a senior accountant for Coopers & Lybrand. He has served as President and Chairman of the Board for Franklin Templeton Distributors, Inc., President of Franklin Investment Advisory, LLC, President of FT Trust Company, Vice President of Franklin Advisers, Inc., co-portfolio manager of Franklin Income Fund and Franklin Utilities Fund and as an investment analyst.

Directors

Mark G. Holowesko

Mark Holowesko (58) was appointed to the Board on November 30, 1994. Mark Holowesko is the founding Partner and Chief Executive Officer of Holowesko Partners Ltd (HPL). Mark launched the firm in the fall of 2000, under the name of Templeton Capital Advisors, to serve the needs of institutional and high-net-worth investors. Subsequently renamed Holowesko Partners, under Mark's leadership HPL has enjoyed steady and consistent growth and now stands as one of the premier global equity hedge firms in the industry.

Mark's investment career began in 1985 when he joined Templeton Global Advisors as a research analyst. By 1987, he had assumed the day-to-day management of all portfolios previously managed by Sir John Templeton, including the Templeton Growth Fund and the Templeton Foreign Fund. In 1989, Mark became the Director of Research of the Templeton Global Equity Funds and later, in 1996, assumed the role of Chief Investment Officer.

Mark served as a member of the Executive Committee of Templeton, Galbraith & Hansberger from 1987 to 1992 and as a member of the Executive Committee of Franklin Resources from 1992 to 2000. Mark was Director, President & Head of Investments of Templeton Global Advisors Ltd. from 1992 to 2000.

Currently, Mark is Chairman of the Investment Committee of First Trust Bank, an offshore entity responsible for managing the assets of two of Sir John Templeton's Foundations.

James J. K. Hung

James Hung (72) was appointed to the Board on November 29, 2002. He is the Chairman and Chief Executive Officer ("CEO") of Xinya Investment Group, China, a real estate development and investment group in Mainland China, Hong Kong and Taiwan. He is also a Director and major shareholder of Security Bank in the Philippines and the Director of Franklin Templeton Fund Management Company in Shanghai, a joint venture of Franklin Templeton and the Sealand Securities Company, China. His previous experience includes working for Asia Securities Inc. (Taiwan) as the Chairman and CEO. He has also previously been the Director of Yi-Min Fund Management Co., (China), H&Q Venture Capital Inc. (Taiwan), Taiwan Index Fund Inc. (Luxembourg) and Vietnam Fund Inc. (Guernsey).

The Honourable Trevor G. Trefgarne

The Honourable Trevor Trefgarne (75) was appointed to the Board of Franklin Templeton Investment Funds on November 29, 2002. He is Chairman of Enterprise Group Limited, Ghana, and has been Director of a number of U.K. listed investment funds including Templeton Emerging Markets Investment Trust, Recovery Trust (Chairman) and Gartmore High Income Trust. He has extensive experience of the management of listed companies in the U.K. and Africa.

Jed A. Plafker

Mr. Plafker (48) was appointed to the Board of Franklin Templeton Investment Funds on April 13, 2017. He is currently serving as the president of Franklin Templeton International. In this capacity, he is responsible for the international sales and marketing function. He also serves as a director of various Franklin Templeton corporate and investment entities as well as the ICI Global Steering Committee. Mr. Plafker joined Franklin Templeton in 1994, as an attorney in Franklin Templeton's corporate legal department. In January 1998, Mr. Plafker joined the international legal team as a vice president covering legal issues around the world. In May 2000, he moved to Franklin Templeton's Hong Kong office to become chief legal counsel, Asia, where he had responsibility for all legal issues effecting Franklin Templeton's Asia business, products and people.

In April 2001, Mr. Plafker took on the role of country head in Hong Kong where he ran the sales and marketing operations for Hong Kong while continuing in his role as chief legal counsel for Asia. In July 2002, he became managing director of Franklin Templeton Alternative Strategies. In January 2003, Mr. Plafker relocated to London to become one of five managing directors of Franklin Templeton's International Retail Group where he was responsible for overseeing the sales and marketing of all Franklin Templeton products in Africa, Middle East and parts of Europe including the UK, Spain, Switzerland and various Nordic countries. In June 2005, Mr. Plafker relocated to Franklin Templeton's headquarters in the United States.

Mr. Plafker earned a B.A. in economics and business from Lafayette College in Easton, Pennsylvania and a Juris Doctorate from the University of Miami in Coral Gables, Florida.

William C. P. Lockwood

William Lockwood (62) was appointed to the Board of Franklin Templeton Investment Funds on December 1, 2014. He joined Franklin Templeton in 1992 and served as General Manager of the Franklin Templeton Luxembourg subsidiary and Franklin Templeton Investment Funds until December 2005. From December 2005 until January 2014, he was Conducting Officer of Franklin Templeton Investment Funds and of Franklin Templeton International Services S.à r.l. subsequently. The Conducting Officer role was a management, oversight and governance role under the EU UCITS legislation reporting directly to the Board of Franklin Templeton Investment Funds. REPORT OF THE INVESTMENT MANAGERS – SIX MONTHS TO DECEMBER 31, 2018

During the six months ended December 31, 2018, US-China trade tensions dominated investor attention. Though some optimism appeared later in the period that trade relations could improve, newsflow on the dispute generally dampened sentiment. Concerns also arose about the pace of US interest-rate hikes and signs of slowing global economic growth.

In Europe, despite US trade rhetoric and economic turmoil in Turkey, strong corporate earnings and promising trade talks buoyed regional financial markets early in the period. The European Union (EU) and Italy tussled over the latter's budget plans, but these tensions eased by period-end. However, during 2018's fourth quarter, continued Brexit uncertainty, worries about the pace of US interest-rate increases and mixed corporate earnings soured investor outlooks. Europe's third-quarter gross domestic product (GDP) growth slowed compared to previous quarters and came in below consensus expectations at 1.6% year-on-year in the euro area and 1.8% in the EU. However, Europe's unemployment rates through November were at historically low levels. The European Central Bank's (ECB's) net asset purchase programme concluded at the end of December, though balance sheet reinvestments are to continue. In early August, the Bank of England increased its benchmark interest rate to its highest level since 2009, at 0.75%. The United Kingdom's third-quarter GDP grew 1.5% year-on-year, ahead of consensus expectations and the paces of the first and second quarters.

In the United States, robust corporate earnings, high business and consumer confidence, multi-decade low unemployment and strength in other economic indicators all supported US equities early in the reporting period. In September, the US Federal Reserve (Fed) lifted the federal funds target rate 25 basis points (bps) to a range of 2.00% to 2.25%. As the reporting period wore on, though major US stock indices delivered their best week in nearly seven years to end the month of November, they otherwise saw widespread declines during the fourth quarter amidst doubts about trade policy and the strength of the global economy. Investors also appeared concerned over corporate earnings potentially softening in 2019. US real GDP growth for the third quarter was revised slightly lower from an earlier estimated 3.5% quarter-on-quarter annualised pace to 3.4% (compared to 4.2% in the second quarter). The Fed lifted the federal funds target rate in December by 25 bps to a range of 2.25% to 2.50%. It modestly lowered its forecast for US economic growth in 2019 and implied there may be fewer interest-rate hikes in the year ahead than previously projected.

Broad gauges of the global commodity complex were under pressure for much of the period amidst a slightly stronger US dollar and concerns over desynchronised global growth and China's demand outlook. The US-China trade dispute added to the commodity complex's headwinds and spurred uncertainty over global trade in 2019. Most commodities suffered steep price declines for the six-month period, led by crude oil. Crude oil prices were beset by signs of excess inventory and weak demand from China, India and other economies across emerging Asia (the source of two-thirds of global oil-demand growth), which overshadowed major producers' recent efforts to pare global oversupply. Some analysts believe the US dollar may have less of a downside influence on commodity prices in 2019 given its expensive valuation, a flagging equity boom, waning cash repatriation by US companies, and the possibility that going forward the Fed will not raise interest rates as many times as previously signalled.

Recent market shifts have been driven by a wide range of factors, including decelerating and desynchronising global economic growth, higher US interest rates, a gradual rise in US inflation, geopolitical uncertainty in several regions of the world, select emerging-market challenges, and policy risks with a view towards difficult US-China trade relations. Looking ahead, we see scope for continued moderate global growth as China is likely to undertake stimulus measures and as the Fed and ECB navigate their respective economic cycles. While valuations look extended in some parts of the equity market (albeit less so following fourth-quarter weakness), we also see pockets of opportunity, particularly outside the United States. Volatility is likely to remain elevated given rising late-cycle risks, and the resultant dislocations should continue to present opportunities for disciplined stockpickers. The policy backdrop is also an important consideration given nascent efforts to normalise what has been extraordinarily accommodative central bank policy. We continue to believe that the process of monetary policy normalisation is likely to drive a rotation away from expensive growth stocks, to the benefit of beaten-down value shares. From a global fixed income perspective, many of the countries that we believed were undervalued earlier this year have become even more undervalued with the recent "risk-off" cycle. Longer term we continue to believe that a number of local-currency markets are fundamentally stronger than markets have been indicating. We also expect currency appreciation across a select subset of emerging markets.

The Fund Performance disclosed in this table is the performance of the reference share class in base currency of the Fund.

Where Class A distribution “A (dis)” Shares are disclosed, the performance is calculated with all the income reinvested (total return). Information on other share classes is available on request.

* The inception date is for the Fund, however the reference share class launched at a later date.

† Fund performance prior to September 1996 excluded from calculation because a different portfolio allocation strategy was in use.

Information on other share classes is available on request. This report shall not constitute an offer or a solicitation of an offer to buy shares. Subscriptions are to be made on the basis of the current prospectus, where available the relevant Key Investor Information Documents (“KIIDs”), a copy of the latest available audited annual report and, if published thereafter, the latest unaudited semi-annual report. The price of shares and income from them can go down as well as up and you may not get back the full amount that you invested. Past performance is no guarantee of future performance. Currency fluctuations may affect the value of investments.

Note 2 — Significant accounting policies

(a) General

The financial statements are prepared in accordance with the regulations of the Grand Duchy of Luxembourg relating to investment funds.

(b) Investment in securities

Securities which are listed on a stock exchange or traded on any other organised market are valued at the last available price on such exchange or market which is normally the principal market for each security, and those securities dealt in on an over-the-counter market are valued in a manner as near as possible to that for quoted securities.

Securities not listed on any stock exchange nor traded on any organised market are valued at the last available price, or if such price is not representative of their fair value, they are valued prudently and in good faith on the basis of their reasonably foreseeable sales prices.

The Company has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. In such circumstances, the price of such investment shall be adjusted in accordance with the procedures adopted, as determined by or under the direction of the Board of Directors.

NOTES TO THE FINANCIAL STATEMENTS AT DECEMBER 31, 2018 (CONTINUED)

Note 2 — Significant accounting policies (continued)

(b) Investment in securities (continued)

During the accounting period under review, gains and losses on investment securities sold were computed on the average cost basis for all Funds with the exception of the Franklin High Yield Fund, the Franklin Income Fund, the Franklin U.S. Government Fund, the Templeton Asian Bond Fund and the Templeton BRIC Fund which were computed on the first-in, first-out basis.

During the accounting period under review, discounts and premiums were amortised to income over the period to maturity.

For mortgage-backed and other similar holdings with scheduled debt paydowns, the Funds record accruals, based on their historical experience, for anticipated paydowns. Such accruals are recorded as a reduction or increase to the related holdings as disclosed on the Schedule of Investments and are included in the related unrealised appreciation/depreciation on investments shown on the “Statement of Operations and Changes in Net Assets”.

Money market instruments are valued at market value with the exception of Franklin Euro Short-Term Money Market Fund, where all securities are valued at amortised cost. Under this method, the cost of investments is adjusted to income for the amortisation of premiums and accretion of discounts over the life of the investments. Where the amortised cost basis does not reflect a prudent approach to the valuation of the security, the latest available price prevailing on the valuation day is used.

(c) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at the forward rate applicable at the “Statement of Net Assets” date for the remaining period, until maturity. Gains or losses resulting from forward foreign exchange contracts are recognised in the “Statement of Operations and Changes in Net Assets”.

(d) Financial future contracts

The Company may enter into financial future contracts to gain exposure to market changes. A financial future contract is an agreement between two parties to buy or sell a security for a set price on a future date. Required initial margin deposits of cash or securities are maintained by a broker in a segregated account. Subsequent payments, known as variation margin, are made or received by the Company depending on the fluctuations in the value of the underlying securities. Such variation margin is accounted for as unrealised gains or losses until the contract is closed, at which time the gains or losses are reclassified to realised gains or losses. Realised and unrealised gains and losses are included in the “Statement of Operations and Changes in Net Assets”.

(e) Interest rate swap contracts

Interest rate swap contracts are used to hedge the risk of changes in interest rates and are agreements between two parties to exchange cash flows based on a notional principal amount. The net interest received or paid on interest rate swap contract agreements is accrued daily as interest income/expense.

Interest rate swap contracts are marked to market daily based upon quotations from the market makers and the change, if any, is recorded as an unrealised gain or loss in the “Statement of Operations and Changes in Net Assets”. When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of interest rate swap contracts include changes in market conditions and the possible inability of the counterparty to fulfill its obligations under the agreement.

(f) Inflation swap contracts

An inflation swap contract is a bilateral agreement used to transfer inflation risk from one party to another through an exchange of cash flows.

Inflation swap contracts are marked to market daily based upon quotations from the market makers and the change, if any, is recorded as an unrealised gain or loss in the “Statement of Operations and Changes in Net Assets”. When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of inflation swap contracts include changes in market conditions and the possible inability of the counterparty to fulfill its obligations under the agreement.

(g) Cross currency swap contracts

A cross currency swap is an agreement between two parties to exchange interest payments and principals denominated in two different currencies. Cross currency swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the “Statement of Operations and Changes in Net Assets”.

When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of cross currency swap contracts include changes in market conditions and the possible inability of the counterparty to fulfill its obligations under the agreement.

(h) Total return swap contracts

A total return swap is an agreement in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains.

Total return swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the “Statement of Operations and Changes in Net Assets”.

When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of total return swap contracts include changes in market conditions and the possible inability of the counterparty to fulfill its obligations under the agreement.

Note 2 — Significant accounting policies (continued)

(i) Volatility swap contracts

A volatility swap is a bilateral agreement in which each party agrees to exchange cash flows based on the measured volatility of a specified underlying asset.

Volatility swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the “Statement of Operations and Changes in Net Assets”.

When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of volatility swap contracts include changes in market conditions and the possible inability of the counterparty to fulfill its obligations under the agreement.

(j) Credit default swap contracts

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic payment for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual users.

Credit default swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the “Statement of Operations and Changes in Net Assets”. Any payment received or paid to initiate a contract is recorded as a liability or asset in the “Statement of Net Assets”. When the swap contract is terminated early, the Fund records a realised gain or loss for any payments received or paid.

The risks of credit default swap contracts include unfavourable changes in interest rates, an illiquid secondary market and the possible inability of the counterparty to fulfill its obligations under the agreement, which may be in excess of the amount reflected in the “Statement of Net Assets”.

(k) Option contracts

Options are contracts entitling the holder to purchase or sell a specified number of shares or units of a particular security at a specified price at any time until the contract-stated expiration date. Options purchased are recorded as investments; options written (sold) are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium (original option value) and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

The risks include price movements in the underlying securities, the possibility there may be an illiquid options market, or the inability of the counterparties to fulfill their obligations under the contract.

The Company writes options on securities, futures and interest rate swaps (“swaptions”). These options are settled in cash and subject the Company to unlimited risk of loss. The Company, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

The market values are recorded under “Option Contracts at Market Value” in the “Statement of Net Assets”.

(l) Foreign exchange transactions

Transactions expressed in currencies other than each Fund’s currency are translated into each Fund’s currency at the exchange rates applicable on the transaction dates.

Assets and liabilities designated in currencies other than each Fund’s currency are translated into each Fund’s currency at the appropriate exchange rates ruling at the period-end. Gains and losses on foreign exchange transactions are recognised in the “Statement of Operations and Changes in Net Assets” in determining the results for the accounting period.

The reference currency of the Company as reflected in the financial statements is U.S. dollar. The principal exchange rates applied as at December 31, 2018, are as follows:

AUD	1.4193457	CNH	6.8688000	GBP	0.7841600	JPY	109.6000000	SEK	8.8597000
CAD	1.3649500	CZK	22.4530000	HKD	7.8305000	NOK	8.6477000	SGD	1.3630500
CHF	0.9822000	EUR	0.8727527	HUF	280.1900000	PLN	3.7425500	ZAR	14.3683000

The list of the currency abbreviations is available in note 30.

(m) Mortgage dollar rolls

In a mortgage dollar roll, a Fund sells mortgage-backed securities for delivery in the current month and simultaneously contracts to repurchase substantially similar (name, type, coupon, and maturity) securities on a specified future date. During the period between the sale and repurchase, the Fund foregoes principal and interest paid on the mortgage-backed securities. The Fund is compensated by the difference between the current sales price and the lower forward price for the future purchase, as well as by the interest earned on the cash proceeds of the initial sale.

Mortgage dollar rolls are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the “Statement of Operations and Changes in Net Assets”.

The difference between the current sales price and the lower forward price is treated as realised gain.

The market values are recorded under “Investment in mortgage dollar rolls at market value” or under “Open Short Positions on mortgage dollar rolls” in the “Statement of Net Assets”.

(n) Income

Dividends are credited to income on their ex-dividend date. Interest income is accrued on a daily basis and includes the amortisation of premiums and accretion of discounts, where applicable.

Note 2 — Significant accounting policies (continued)

(o) Securities lending

Unless otherwise provided in the relevant Fund's investment policy, a Fund may utilise up to 50% of its assets for securities lending transactions. The volume of the securities lending transactions of each Fund shall be kept at an appropriate level or each Fund shall be entitled to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations and that these transactions do not jeopardise the management of each Fund's assets in accordance with its investment policy. The counterparties to securities lending transactions must have a minimum credit rating of A- or better, as rated by Standard & Poor's, Moody's or Fitch, at the time of the transactions. Loans will be secured continuously by collateral which must at least equal the value of the securities lent. Securities lending income is disclosed under the caption "Securities lending" in the "Statement of Operations and Changes in Net Assets". Any transaction expenses in connection with the loans are charged to the concerned Fund.

(p) Formation expenses

Formation expenses associated with the launch of the new Funds are expensed as incurred.

(q) Swing pricing

A Fund may suffer dilution of the net asset value per share due to investors buying or selling shares in a Fund at a price that does not reflect dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

In order to counter this impact, a swing pricing mechanism may be adopted to protect the interests of Shareholders of the Fund. If on any valuation date, the aggregate net capital activity of a Fund exceeds a pre-determined threshold, as determined and reviewed for each Fund on a periodic basis, the net asset value per share will be adjusted upwards or downwards to reflect net capital inflows or net capital outflows respectively.

The net capital inflows and net capital outflows will be determined based on the latest available information at the time of calculation of the net asset value per share. The swing pricing mechanism may be applied across all Funds. The extent of the price adjustment is set to reflect dealing and other costs. Such adjustment may vary from Fund to Fund and will not exceed 2% of the original net asset value per share.

In the case of a swing pricing event on the last day of the annual/semi-annual period, the net assets as disclosed in the "Statement of Net Assets", exclude the swing pricing adjustment, however, the net asset value per share as at year/semi-annual period end, as disclosed in the Statistical Information, would include the swing pricing adjustment.

There was no swing pricing adjustment affecting the Funds' net asset value per share on the last day of the period.

Note 15 — Investment management fees

The Management Company receives from the Company a monthly investment management fee equivalent to a certain percentage per annum (as detailed below) of each Fund's average daily net assets during the accounting period. When Funds invest in other Franklin Templeton funds, a management fee is not applied to the amounts invested. The following percentages apply in respect of the different Funds as at December 31, 2018.

The Investment Managers, as noted on pages 4 to 6, will be remunerated by the Management Company out of the investment management fee received from the Company.

No management fee is payable by an investor on the acquisition of Class X and Class Y shares, instead a fee is paid to the Investment Manager or affiliates under a separate agreement.

Note 16 — Performance fees

The Management Company may be entitled to receive from the net assets attributable to a Share Class an annual performance-based incentive fee (the "Performance Fee") which, if applicable, will be calculated and accrued daily and payable as of the end of each fiscal year.

NOTES TO THE FINANCIAL STATEMENTS AT DECEMBER 31, 2018 (CONTINUED)

Note 16 — Performance fees (continued)

The Performance Fee becomes due in the event of outperformance, that is, if the increase in the NAV during the relevant Performance Period (after deduction of any subscription and/or redemption fees levied) exceeds (i) the increase in the Target Benchmark over the same period and (ii) the applicable High Water Mark point as defined in the Prospectus.

If Shareholders redeem all or part of their Shares before the end of a Performance Period, any accrued Performance Fee with respect to such Shares will crystallise on that Dealing Day and will then become payable.

The following performance fees apply in respect of the PF shares as at December 31, 2018.

Note 17 — Soft commission

Consistent with obtaining best execution, brokerage commissions on portfolio transactions for the Company may be directed by the Investment Managers to broker-dealers in recognition of research services furnished by them as well as for services rendered in the execution of orders by such broker-dealers.

The receipt of investment research and information and related services permits the Investment Managers to supplement their own research and analysis and makes available to them the views and information of individuals and research staffs of other firms.

Such related services do not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payment.

Note 18 — Connected party transactions

Certain Directors of the Company are or may also be Officers and/or Directors of one or more of the various Investment Managers of the Funds, among others, Franklin Templeton Investimentos (Brasil) Ltda., Franklin Templeton Investments (Asia) Limited, Templeton Investment Counsel, LLC and Franklin Templeton Institutional, LLC. All transactions with connected parties were entered into in the ordinary course of business and under normal commercial terms.

The investment management fees that are accrued by the Company in respect of the Management Company are detailed in note 15 to the financial statements.

There are no connected brokers in Franklin Templeton, and no transactions were entered into with connected brokers during the period ended December 31, 2018.

During the period ended December 31, 2018, the Company accrued administration and transfer agency fees and shares' maintenance and service charges in respect of Franklin Templeton International Services S.à r.l. as Management Company and Principal Distributor of the Funds.

Note 19 — Taxation

Under current tax laws and practice, the Company is not liable in the Grand Duchy of Luxembourg to any taxes on income or on realised or unrealised capital gains.

The Company is liable in the Grand Duchy of Luxembourg to a tax of 0.05% per annum, such tax being paid quarterly, and calculated on the net asset value of each Fund at the end of each relevant quarter (except the Franklin Euro Short-Term Money Market Fund and the Franklin U.S. Dollar Liquid Reserve Fund for which the rate is 0.01%). This tax is not applicable for the portion of the assets of a Fund invested in other undertakings for collective investment that have already been subject to such tax. Class I shares, Class X shares and Class Y shares may benefit from a reduced rate of 0.01% per annum if all shareholders of these share classes are institutional investors.

Investment income received or capital gains realised by the Company may be subject to tax in the countries of origin. All liabilities in respect of taxes payable on unrealised capital gains on investments are provided for as soon as there is a reasonable certainty that a liability will crystallise.

No stamp duty or other tax is payable in the Grand Duchy of Luxembourg on the issue of shares in the Company.

The Company is registered for Value Added Tax in the Grand Duchy of Luxembourg and subject to account for Value Added Tax in accordance with current laws.

Note 20 — Share classes

Class A shares: are offered at the applicable net asset value, plus an entry charge of up to 5.75% of the total amount invested varying per asset class. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor. A contingent deferred sales charge of up to 1%, retained by the Principal Distributor, applies to certain redemptions on qualified investments of USD 1 million or more within 18 months after repurchase.

Class AS shares: are offered in Singapore to CPF Investors as more fully described in the current prospectus of the Company. Class AS shares are offered at the applicable net asset value, plus an entry charge of up to 3% of the total amount invested. In addition, a maintenance charge of up to 0.40% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor.

Class AX shares: are offered at the applicable net asset value, plus an entry charge of up to 5.75% of the total amount invested varying per asset class. value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Starting from 2011, shares will be automatically converted into Class A shares of the same Fund 7 years after their purchase as more fully disclosed in the prospectus.

Class C shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of 1.00% if an investor redeems shares within one year of purchase. In addition, a maintenance charge of 1.08% per annum of the applicable average net asset value is deducted. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other party.

Class F shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of up to 3% if an investor redeems shares within three years of purchase. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value and a servicing charge of 1.00% per annum of the applicable average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Class F shares will be automatically converted into Class A shares of the same Fund free of charge on the monthly scheduled conversion date fixed by the Management Company upon or following the expiry of 36 months after the date of their purchase.

Class G shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of up to 3% if an investor redeems shares within three years of purchase. In addition, a maintenance charge of 0.10% per annum of the applicable average net asset value and a servicing charge of 1.00% per annum of the applicable average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Class G shares will be automatically converted into Class A shares of the same Fund free of charge on the monthly scheduled conversion date fixed by the Management Company upon or following the expiry of 36 months after the date of their purchase.

Class I shares: are offered to institutional investors as more fully described in the current prospectus of the Company. Purchases of Class I shares are not subject to an entry sales charge, nor a contingent deferred sales charge or any maintenance or servicing charges.

Class N shares: are subject to an entry charge of up to 3% of the total amount invested. In addition, a maintenance charge of up to 1.25% per annum of the applicable average net asset value is accrued daily and is deducted and paid monthly to the Principal Distributor. Class N shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class S shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class S shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class W shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class W shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class X shares: are not subject to an entry charge and no management fees will be payable by an investor on the acquisition of Class X shares (instead a fee is paid to the Investment Manager or affiliates under an agreement between the Investment Manager and the investor). Class X shares are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company.

Class Y shares: are not subject to an entry charge and no management, registrar, transfer, corporate, domiciliary or administration fees will be payable by an investor on the acquisition of Class Y shares (instead a fee is paid to the Investment Manager or affiliates under an agreement between the Investment Manager and the investor). Class Y shares are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company.

Class Z shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class Z shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Distributing shares: may have different frequencies. (Mdis) share classes distribute monthly, (Qdis) share classes distribute quarterly and (Ydis) share classes distribute annually.

Accumulating shares (acc): do not distribute any dividends but the income attributable is reflected in the increased value of the shares. All other terms and conditions are the same as those which apply to distributing share classes.

Performance fee classes: are classes that are subject to performance fees and are denoted by the inclusion of "PF" in their names.

Hedged share classes: In respect of hedged share classes, the Company offers the following alternatives:

- ▶ H1: in order to reduce exchange rate fluctuations and return fluctuations, the base currency exposure of the hedged share class is hedged into a specified alternative currency.
- ▶ H2: a hedging strategy is applied in order to reduce the risk of currency movements between the currency of the hedged share class and other material currencies of the securities held by the Fund.
- ▶ H4: where currency controls imposed by a country's monetary authority prevent free movement of currency ("Restricted Currency"), another hedging methodology is used. The share class is denominated in the base currency of the Fund but hedges the Fund's base currency into a specified Restricted Currency for investors in that Restricted Currency.

Note 21 — Expenses reimbursement

On a daily basis, for share classes where the expenses are capped, the level of expenses is calculated and compared to the cap and where the level of expenses is higher than the cap, this difference is booked as a decrease of expense (the "waiver fees"). The performance fees do not form part of the capped expenses. On a monthly basis the waiver fees are deducted from the fees received by Franklin Templeton International Services S.à r.l. The amount of waiver fees is disclosed as "Expenses reimbursement" in the "Statement of Operations and Changes in Net Assets".

Note 22 — Statement of changes in the investment portfolio

A list, specifying for each Fund total purchases and sales transacted during the period under review, may be obtained, upon request, at the registered office of the Company.

Note 23 — Transaction costs

Transaction costs are costs incurred to acquire and dispose of financial assets or liabilities. They include fees and commissions paid to agents, brokers and dealers. During the period ended December 31, 2018 the Company incurred the following transaction costs:

*For debt securities and derivatives, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

Note 24 — Equalisation

The Funds use an accounting practice known as equalisation, by which a portion of the proceeds from issue and costs of redemption of shares, equivalent on a per share basis to the amount of undistributed investment income on the date of the transaction, is credited or charged to undistributed income which is disclosed as equalisation in the “Statement of Operations and Changes in Net Assets”. As a result, undistributed investment income per share is unaffected by issue or redemptions of shares.

[†]These fund/ or share classes were closed during the period under review

Note 26 — Portfolio Turnover Ratio

The portfolio turnover ratio, expressed as a percentage, is equal to the total of purchases and sales of securities netted against the total value of subscriptions and redemptions, over average net assets of the Fund for the period. It is effectively a measure of how frequently a Fund buys or sells securities.

The portfolio turnover ratio calculation is not applicable to Liquid Reserve and Money Market Funds, as such a ratio is not relevant to such Funds due to the short-term nature of the investments.

Note 27 — Total Expense Ratio

The Total Expense Ratio (“TER”), expressed as a percentage, represents how the total expenses of the Funds relate to the average net assets of the Funds for the period ended December 31, 2018. The total expenses comprise the investment management fees, the administration and transfer agency fees, the custodian fees and other expenses as summarised in the “Statement of Operations and Changes in Net Assets”.

For share classes launched during the period, the TER is annualised.

Note 28 — Audited annual reports and unaudited semi-annual reports

The audited annual reports and unaudited semi-annual reports are available on the following Franklin Templeton website, www.franklintempleton.lu, or may be obtained, free of charge, on request at the registered office of the Company. They are only distributed to registered Shareholders in those countries where local regulation so requires.

Note 29 — Global Credit Facility

Effective February 9, 2018, the Company, together with other European and U.S. registered investment funds managed by Franklin Templeton (individually, “Borrower”; collectively “Borrowers”), entered into a joint syndicated senior unsecured credit facility totaling USD 2,000 million (Global Credit Facility) to provide a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Company will, in addition to interest charged on any borrowings made by the Company and other costs incurred by the Company, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee based upon the unused portion of the Global Credit Facility.

During the financial period ended December 31, 2018, the Company did not use the Global Credit Facility.
